April 23, 2015

To Whom It May Concern:

I would like to acknowledge Michael Kelly for his work this semester as a student technology fellow at Delta College. The student technology fellow program was established in 2015 to "foster symbiotic mentorships between faculty and students in the pursuit of enriched digital pedagogy." To learn more about the Student Technology Fellows program see <http://technologyfellow.org/>.

As Michael's faculty mentor I have been impressed with his technology skills, his dedication to the project, and his willingness to provide technical support on a volunteer basis. We worked collaboratively throughout the semester to apply captions to many of my YouTube videos.

Michael is highly skilled in researching a solution, applying it, and he was a pleasure to work with.

Overall, I found Mike to be a dedicated and dependable student technology fellow and would like to thank him for enriching my classes and enhancing the learning experience for my current and future students.

Sincerely,

Dennis J. Roebuck

Associate Professor of Computer Science and Information Technology

*Learning is our primary measure of success.*
